**Accompaniment to Government Resolution, General Department,
No. 2559, dated the 1st April 1913.**

MEMORANDUM OF INFORMATION FOR THE GUIDANCE OF PATIENTS PROCEEDING TO COONOR FOR ANTI-RABIC TREATMENT AT THE PASTEUR INSTITUTE.

Coonor is situated on the Nilgiri Hills about 6,000 feet above sea-level and can be reached by the Nilgiri Railway from Mettupalaiyam in about three hours.

2. Mettupalaiyam is on the south-west branch of the South Indian Railway and is easily accessible from all parts of Southern India. The institute is about a mile from the Coonor railway station.

3. *Climate*.—The temperature of Coonor ranges between 60° F. and 75° F. from March to September and between 40° and 60° F. from October to February.

4. The rainfall is about 70 inches, the greater part being received during the north-east monsoon in October, November and December.

5. Persons coming from the plains require fairly warm but not heavy clothing and bedding. Indigent Indian patients will be supplied with blankets.

6. *Accommodation*.—There are several hotels and boarding-houses which are open all the year round and also a residential club.

(a) Europeans and Eurasians are not accommodated at the institute but must make their own arrangements for board and lodging about which there is no difficulty. Persons who cannot afford hotel rates can find inexpensive lodgings in the town within three-quarters of a mile of the institute.

(b) Well-to-do Indians can find houses in convenient situations and others can arrange for lodging and meals in the town. Indigent patients are accommodated in the free quarters in the institute compound and will be provided with blankets and cooking pots.

(c) British soldiers and their families stay in the sanitarium at Wellington and are sent daily to the institute in a tonga.

(d) Soldiers of Indian regiments will be accommodated in tents in the institute compound.

7. Patients who are sent by or at the expense of private employers, friends or other private persons or associations should be provided by them with the cost of their return journey and also with sufficient money to pay for their food during the course of treatment, which lasts 14 days. If desired, money for these purposes may be sent to the Director of the institute, and this course is strongly recommended in the case of menial servants and illiterate or other irresponsible people.

8. *Treatment*.—Patients should proceed to Coonor as soon as possible after being bitten. All treatment at the institute is free but patients in a position to do so are expected to contribute something towards its upkeep. The course of treatment lasts 14 days and patients are not laid up but can go about as usual having regard to the rules of life recommended. Patients should always endeavour to bring with them the brain of the animal that bit them, one-half in pure glycerine and the other half in a mixture containing 3 per cent. of bichromate of potash and 5 per cent. glacial acetic acid in distilled water.

Rules for the grant of concessions to Government servants and to indigent persons not employed in the public service to enable them, when bitten by rabid animals, to proceed to the Pasteur Institute at Coonor for treatment.

I.—CONCESSIONS TO GOVERNMENT SERVANTS.

1. "Government servant" in these rules means a Government servant paid from Imperial or Provincial funds or from Port and Marine funds administered by Government, but does not include a Government servant on foreign service or in Municipal or Local Fund service.

2. Any Government servant who has been bitten by a rabid animal and who is too poor to proceed to Coonor at his own expense may, provided that he is drawing not more than Rs. 100 a month, be granted—

(i) His actual travelling expenses to Coonor and back, *viz.*, (a) a single fare each way by railway of the class by which he is entitled to travel on duty, (b) for journeys by road or river the actual cost of transit not exceeding the amount admissible

under rule. The expenses for the return journey should be paid to the patient at Coonoor after the treatment is finished, by the treasury officer at that station, on production of a discharge certificate from the Director of the Institute.

(ii) An advance of one month's pay.

(iii) One month's casual leave, any leave required in excess being treated as privilege or sick leave. Provided that if the absence of such Government servant makes it necessary for a substitute to be appointed the period of absence up to one month may, under orders of Government, be treated as extra privilege leave instead of casual leave.

NOTE.—The words "not more than Rs. 100 a month" occurring in this rule and the word "pay" occurring in this and subsequent rules should be interpreted as referring to "monthly substantive pay" as defined in article 38, Civil Service Regulations.

3. Any Government servant who has difficulty in finding at once the means to enable him to proceed to the Coonoor Institute, and whose pay exceeds Rs. 100 but does not exceed Rs. 500 a month, may be granted an advance not exceeding the amount admissible under rule 2 (i), and may also be granted an advance of one month's pay and one month's casual leave, provided that if the absence of such Government servant makes it necessary for a substitute to be appointed, the period of absence up to one month may, under orders of Government, be treated as extra privilege leave and not as casual leave. Any further leave required should be sick leave.

4. Any Government servant drawing not more than Rs. 500 a month may, if a member of his family is bitten by a rabid animal and he has difficulty in finding at once the means of sending him or her to the Pasteur Institute, Coonoor, be granted an advance not exceeding the actual travelling expenses admissible under rule 2 (i) *plus* one month's pay.

5. Government servants drawing more than Rs. 25 per mensem proceeding to the Pasteur Institute for treatment should bear the cost of their maintenance both during the journey and while under treatment at the institute. Those drawing not more than Rs. 25 per mensem are entitled to maintenance allowance during treatment as well as during the journey to and from the Pasteur Institute at the rates of daily allowance admissible to officers of the third and fourth classes as the case may be under article 1063 of Civil Service Regulations.

6. The officers of the Madras Presidency mentioned in appendix A are authorized to grant the above-mentioned concessions to Government servants employed under them or subject to their authority.

7. The despatch of every Government servant to the Coonoor Institute for treatment should at once be reported to the officer immediately superior to the officer by whom the patient is sent, and by that officer, if he is not the head of the department, to the head of the department. Where the head of the department himself sends the person, no further report will be required. A report should also at once be made direct to the Director of the Pasteur Institute, Coonoor, stating—

- (a) the class to which the patient has been treated as belonging for the purpose of travelling allowance;
- (b) the amount of travelling allowance (by rail, road or river) advanced; and
- (c) the number of days for which and the rate at which maintenance allowance has been advanced.

NOTE.—No amount can be drawn from the Coonoor sub-treasury until this information is received at the Pasteur Institute.

8. The Director's discharge certificate should be prepared in duplicate: one copy of it should be despatched by him to the Government servant responsible for the original advance, and the other copy should be attached to the bill for the travelling allowance for the return journey which will be presented for payment at the Coonoor treasury.

9. The bill for travelling allowance for the return journey should be at the same rates as were allowed for the journey to the institute and should also be supported by the original intimation received from the officer who is responsible for the original advance. Maintenance charges for days spent at Coonoor and for the days of the return journey may be advanced on separate bills drawn by the Director, who will certify thereon the class to which the patient belongs and the number of days that he was under treatment or that will be occupied in the journey.

10. The travelling and maintenance allowances of Government servants who are paid from Imperial and Provincial funds should be debited to a special detailed head, *viz.*, 32, Miscellaneous—*Miscellaneous and unforeseen charges*—Charges for the treatment of patients at the Pasteur Institute. The travelling and maintenance allowances of servants of Port and Marine funds administered by Government should be debited to the funds from which their salaries are met. Any recoveries of overdrawals to be effected in consequence of a Government servant having been allowed travelling allowance in excess of that to which he was entitled will be made by the Accountant General.

11. All advances made to Government servants under rules 2, 3 and 4 should ordinarily be recovered in three equal monthly instalments as provided in article 137 (b) of the Civil Account Code. But in special cases where it is considered that the enforcement of the rule would cause hardship, the Local Government or the Honourable the Judges of the High Court, the Board of Revenue and the officers named in the margin, who have been specially empowered in that behalf,

may sanction the repayment of an advance in more than three, but not more than twelve, instalments.

II.—CONCESSIONS TO INDIGENT PERSONS NOT EMPLOYED IN THE PUBLIC SERVICE.

12. Any indigent person domiciled in British India not employed in the public service who has been bitten by a rabid animal, and who, in the opinion of any officer authorized to grant the concession, is unable to proceed to the Pasteur Institute, Coonoor, for treatment at his own expense, may be granted his actual travelling expenses to Coonoor and back, *viz.*, (a) a single third class fare each way by railway, (b) for journeys by road or river the actual cost of transit, (c) maintenance allowance at the following daily rates:—

Europeans and Eurasians, one rupee during the journey and Rs. 2-8-0 during treatment; Indians, four annas during the journey and six annas during treatment.

Provided that for the purpose of this rule no person or member of the family of a person who pays more than Rs. 50 as *kist* per annum or whose income from any other source than land exceeds Rs. 15 *per mensem* shall ordinarily be classed as indigent; nor shall any person be classed as indigent who has at the time or can obtain from relatives the means of paying his expenses.

A list of the officers in the Madras Presidency authorized to grant this concession is given in appendix B.

13. A third class pass or ticket from the patient's station to Coonoor by the shortest and cheapest route on the terms allowed by the Railway Companies will be procured for the patient by the officer who despatches him to Coonoor. The Director, Pasteur Institute, Coonoor, will make similar arrangements for the patient's return journey after treatment.

14. The railways, parties to the Indian Railway Conference Association which are noted on the margin, allow concessions to indigent patients and their attendants proceeding to the Pasteur Institute at Coonoor for anti-rabic treatment under the conditions noted below:—

(a) an indigent person not in the public service (together with one attendant, when such indigent person is a woman or is a child under 16 years of age, or is a man who, by reason of age or other sufficient cause, is incapable of travelling alone), will be granted third class tickets free of charge;

(b) tickets for the return journey will be issued on production of a certificate signed by the authorities of the Pasteur Institute;

(c) only one attendant as above will be allowed with each patient or each party of patients of the same family;

(d) the requisition for tickets must have the impression of the official seal of the office from which issued; it must be signed by one of the authorities mentioned in appendix B.

Erasures and alterations in a requisition must be initialled by the issuing officer.

(e) A certificate in the form printed as appendix C should be filled in by the despatching officer and presented to the Station Master when application is made for the grant of free third class tickets or passes to Coonoor.

15. The patient may be paid in advance the actual cost of transit for journeys by road or by river, when necessary, and maintenance allowance for the period of his journey to Coonoor. He should take with him to Coonoor and produce before the Director of the institute a certificate signed by the officer despatching him that he has been sent to the institute for treatment at the expense of Provincial revenues or by local or municipal funds.

16. The maintenance allowance of the patient while under treatment at Coonoor and for the period of the return journey, and also, if necessary, the cost of transit for journeys by road or by river on the return journey, will be disbursed by the Director, Pasteur Institute, Coonoor, in the first instance and subsequently recovered from the sub-treasury, Coonoor, on production of a discharge certificate.

17. The Director's discharge certificate should be prepared in duplicate. One copy should be despatched by him to the Government servant responsible for the original advance, and the other should be attached to the bill for travelling allowance for the return journey when presented for payment at the Coonoor treasury.

18. The bill for travelling allowance for the return journey should be at the same rates as were allowed for the journey to the institute and should be supported by the intimation received from the officer responsible for the original advance.

19. Maintenance charges for days spent at Coonoor and for the days of the return journey may be advanced on separate bills drawn by the Director who will certify thereon the days that the patient was under treatment or that will be occupied in the journey.

20. Women, children under sixteen years of age, and men who are, by reason of age or other sufficient cause, incapable of travelling alone, may be allowed an attendant to accompany them to the institute at Coonoor. Any such attendant shall be granted—

(i) travelling expenses and maintenance allowance at the rate sanctioned for patients; and

(ii) wages, not exceeding four annas a day, in cases where the despatching officer is satisfied that the patient is unable to pay the daily expenses of the attendant.

[This concession is also admissible to Government servants (but not their families) drawing not more than Rs. 100 a month.]

The charges of the attendant will be borne by the fund to which the charges on account of the patient are debited. Only one attendant may be sent at the public expense with each patient or patients of the same family.

21. The despatch of each indigent person to Coonoor for treatment at the public expense should at once be reported to the Director of the institute; to the Chairman of the Municipal Council or the President of the Local Board concerned, if the area from which the patient is despatched is within the limits of a municipal town or of a Local Board; and in every case a report should also at once be sent to the Accountant General.

The report should state—

(a) the amount of travelling allowance (by rail, road or river) advanced;

(b) the number of days for which and the rate at which maintenance allowance has been advanced; —

(c) whether it is proposed that the cost should be borne by Provincial revenues or by municipal or local funds.

22. The expenses incurred in the treatment of indigent persons should be debited to—

(a) *Municipal funds*, where the person sent resides within the limits of a municipality,

(b) *Local funds*, where the residence is outside a municipality, but in a tract where the Madras Local Boards Act, 1886, is in force,

(c) *Provincial revenues*, in all other cases.

The expenditure under Provincial revenues should be debited to a special detailed head, viz., "32, Miscellaneous—*Miscellaneous and unforeseen charges*—Charges for the treatment of patients at the Pasteur Institute".

23. The Director may make advances to indigent persons who come to Coonoor at their own expense, but are unable to maintain themselves there or to pay for their return journey. The possibility of recovering these advances should then be investigated in the following manner. The Director should correspond direct with the officers in charge of the districts to which the patients, to whom advances have been made, say they belong, and should ask them to take over for investigation claims in respect of the advances made. District officers should take over these claims as soon as they are satisfied that the persons who received the advances actually belong to their districts, and should inform the Director that they have done so. The Director should then recover the amounts advanced, from the treasury, producing the district officers' "acceptance" as vouchers, and the claims should then be passed on to the provinces concerned—to be adjusted as the amounts advanced are recovered or written off under the local rules. Any sum which is found to be irrecoverable after being passed on to a district officer will be debited to the province concerned as a provincial charge under the

head " 32, Miscellaneous—*Miscellaneous and unforeseen charges*—Charges for the treatment of patients at the Pasteur Institute, Coonoor". Otherwise, *i.e.*, if no district officer takes over the claim, it will be adjusted finally under the same head in the books of the Accountant General, Madras.

24. With regard to indigent patients who are sent for treatment from the Pasteur Institute to the Municipal Hospital, Coonoor, the Director may, in the first instance, defray the expenses connected with their diet and in case of death, of their burial or cremation, as the case may be, and recover the cost in accordance with the procedure laid down in rules 19 and 23.

Saveran 27th September 1912

Sir,

With reference to your No. 479 dated
13th July 1912 I must respectfully have the honor to
state that I have already reported in this office
No. 168 dated 10th July 1912 that the Dispensary
Sweeper Hoosainkha with Khaimullaakha owing to
General debility and old age is quite unfit
for duty of the Sweeper and he is unable
to perform his duties of the Dispensary satisfactorily.
So I have made a request in my letter No.
quoted above, to arrange for a new man in
his place but I am sorry to say that no arrangement
for appointing a new man has yet been made.
So much inconvenience is caused for keeping
the dispensary garden in a bad condition and the
dispensary compound in a sufficiently ^{poor} condition
as the present Sweeper is now invalid and useless
but his services may be disposed off if another
man is available.

With reference para II of your No.
quoted above I respectfully have the honor to state
that I tried my utmost and asked several
persons to accept the post but I am sorry to
inform you that I am unable to procure
the services of a new strong man I am
respectfully

respectfully request that you will kindly arrange
to provide a strong and strong man for the
sweeper's post at your earliest convenience
in order to enable me to put the garden
of the Dispensary in a tidy condition according
to ^{my} various suggestions regarding the improvements
in the garden.

I have the honor to be
Sir,

your most obedient servant,

No 664 of 1912

Reply.

The Dispensary Committee in their
proceedings dated 20th have remarked
that the road way & the petty garden
in front ^{I fear} of the Dispensary are overgrown
with weeds & look untidy & have directed
the attention of the Medical Officer to
the necessity of putting them in proper
order. The Medical Officer has kept
this office to 479 of 13-7-12 for ^{more than} two months
& has now retired to it. If he was
unable to get another sweeper he should have
reported his inability ^{forthwith} before. Until
another man is available, the m.o.

Shd ^{please} try & get on with the present man.

2) There is a Bhisti & a Sweeper attached to the Dispensary in addition to a Bhangi ^{inside the station}. The petty garden & the road way in front & rear of the Dispensary & the compound generally shd have been kept clean & ~~very~~ tidy by the Bhisti & Sweeper under the supervision of the M.O. The rows of flower & other ^{planted} trees along the road way in the rear of the Dispensary have ~~all~~ disappeared. This is to be regretted.

3) The Dispensary Committee do not provide the M.O. the few flower & vegetable gardens near his quarters. But the garden attached to the Dispensary & the compound shd not ~~shd~~ have been kept clean & ~~tidy~~ reflected.

4) As to the verbal suggestions made by them to the day of the Dispensary Committee, the M.O. replied that the garden & the Dispensary premises are to be looked after ~~at his~~ by him at his leisure. Thereby was an unpleasant surprise to them & the Dispensary

Committee I was anything but
satisfied. The premises of an
institution like the dispensary should be
absolutely clean & bright & they are
hoping that the M. D. will do his best
to have this done

To,

The Diwan of Savanur State,

Savanur:

Sir,

With reference to your Vern: Yadi  
No. 256 dated the 25<sup>th</sup> ultimus, I have the  
honour to state for your information  
that on the 1<sup>st</sup> instant I visited the village  
of Dombra. Matter & found that Malaria  
Fever was prevalent there to a considerable  
extent. The stagnant water of the Warda  
river affords a breeding place to the mos-  
quitoes which appears to be cause of the  
disease. The water supply of the river  
appears to be contaminated for which reason  
the people have dug up some small pits  
in the river-bed which afford them good  
drinking-water. I have asked them to dig  
many more so that there may not be any

shortage for it. —

2. As regards the prophylactic measures I have advised the villagers to burn cow-dung-cakes & smoke their dwellings every evening so that the mosquitoes should find no shelter there. I have asked the village officers to get a stock of quinine from you & distribute it among the villagers as is done in the British territories. Personally I treated about 25 persons & have asked to send for medicines from the State Dispensary, Sawanur, should they require any more. In fact I have encouraged the villagers in all possible ways to take to the treatment.

3. I would also request you to kindly impress upon the village officers the following points for adoption in the village:—

(1). Advising people to daily fumigate the dwellings by means of cow-dung-cakes which is the most handy & cheapest method to drive out mosquitoes.

(2) To get the drinking water from pits dug in the river-bed. —

(3) To encourage the people to get medicines

from the Dispensary.

(4) If Rs. (3) is not possible to distribute  
Quinine free from supply obtained from  
you.

4. I would request you to kindly supply  
The village officers with 1 lb of Quinine  
at the cost of the State. At present I  
would myself have supplied the want  
but my stock is limited.

I have the honour to be,

Sir,

Sir,

Savadi 3<sup>rd</sup> August 1914.

I beg to submit herewith  
the Supplementary pay bill amounting  
to Rs (155-6-6), of Mr Sheshgir Wapire  
Joshi Sub-assistant Surgeon Senior Grade 2<sup>nd</sup>  
Class, the late Medical officer of the  
State Dispensary, for favour of sanction.

2. From the accompanying copy  
of the Salary slip, No. SP/688, it will  
be seen that he has been promoted to  
Rs 80/- grade & that ~~he is entitled to~~  
~~the increment~~ from 13<sup>th</sup> November 1912.

3. He reverted to the British  
Service on the 17<sup>th</sup> afternoon of August  
1913. He is entitled to the difference of Rs  
(80-65) i.e. 15 per month, from the  
State from 13<sup>th</sup> November 1912 to 17<sup>th</sup>  
August 1913, the period during which  
he was in the State Service. The

expenditure was not forethought &  
so no provision has been made in  
the current year's Budget.

4. The bill also includes Pension Contribution for that period. It may be noted here that the rate of Pension Contribution is raised to  $\frac{1}{4}$  of the pay from 1st August, 1913, under Govt orders.

5. This amount <sup>of the bill</sup> can be paid from the Sub-Head "Cost of medicine", of the Dispensary Establishment.
